

Rail Access Consultant

Role Purpose

Intensify Professional Services (IPS) is seeking Perth-based independent consultants to support upcoming rail access and safeworking programs commencing February 2026.

The role supports rail corridor access planning, safeworking implementation, and coordination across the PTA and ARC Infrastructure networks for bridge inspection and rail infrastructure projects.

About Us

Intensify Professional Services (IPS) is a multi-disciplinary consultancy supporting major resource and infrastructure clients across Western Australia.

IPS provides embedded project, engineering, safety and access capability while maintaining strong values of professionalism, integrity and practical delivery.

Working for Intensify Professional Services, you will be embedded into the UGL Rail and Technology Services team.

UGL RTS is a leading provider of engineering, construction, and maintenance services with a diversified end-market exposure across the core sectors of resources, rail, transport, communication systems, and other infrastructure.

Values

The role embodies the shared values of Linkforce and Intensify, ensuring business growth is delivered ethically, collaboratively and with lasting community benefit.

Intensify Values

Empower People, Respectfully – Connect, mentor, and build capability through shared knowledge.

Lead with Integrity and Empathy – Act with honesty, professionalism, and transparent communication.

Deliver Practical, Lasting Solutions – Combine technical expertise with hands-on experience to achieve measurable, sustainable outcomes.

UGL Values

Integrity – We do what is right, always.

Accountability – We own our decisions and deliver on commitments.

Innovation – We seek smarter, better ways to solve problems.

Delivery – We reliably execute and achieve the outcomes promised.

Key Responsibilities

- Provide PO3-level protection services across PTA and ARC rail corridors
- Implement TOA, LPA, maintenance windows and shutdown access processes
- Support rail access planning, documentation, and coordination
- Ensure compliance with rail safety rules, safe working systems, and regulatory requirements
- Maintain strong communication with inspectors, project teams and rail network stakeholders

About You

- PTA-accredited PO3 and PRES
- Experience on both PTA and ARC Infrastructure networks
- Proven competency in safeworking and rail access planning
- Strong safety leadership and communication skills
- Perth-based and available for multi-year engagement as an independent consultant

Employment Structure

- Independent consultant or subcontractor arrangement
- Multi-year program commencing February 2026
- Competitive rates depending on experience
- Work primarily in Perth Metro with occasional regional requirements
